Thank you for your interest in becoming a patient of the Alliance Dental Center!

Our goal is provide Fund members with dental care which will improve their overall health. Our unique approach to care is designed to reduce existing disease burden and prevent any further destruction of tooth structure, gum tissue or bone.

We are a patient-centered model where our clinical team partners with our patients to reach their goals and improve their overall health. We are an 'oral health center' and not a traditional dental office. Our model requires a commitment by the patient, including more frequent and lengthier appointments. You will work with the clinical team to develop a home-care plan. If you cancel or fail more than two appointments, we will be unable to continue seeing you as a patient.

Here are a few of the things we provide:

- Partner with you to identify your oral health goals to improve your oral health
- Become your 'dental home' so you have a safe comfortable place to receive great care
- Provide you with minimally-invasive care to reduce your disease and work with you long-term to manage your needs
- Help you coordinate your care with specialty offices
- Our patient care advocate works with our patients to help identify barriers to receiving regular care (i.e. fear, anxiety, etc.) and works to address those barriers when possible

Here are a few things we do not do at our office:

- We do not do implants.
- We do not replace multiple missing teeth with dentures, implants, or long-span fixed bridges.
- We do not see new patients to fix an immediate concern or emergency then not see them again.
- We do not provide cosmetic services
